FIVE AM. LEGION POSTS TAKE PART IN MEETING HELD IN CENTERVILLE

Washington Township Post Held Successful Meeting at Country Club

STATE OFFICERS ARE PRESENT

Over 100 Legionnaires Listen To Speeches Made By Prominent Orators

Perhaps one of the best, if not the best meetings held under the auspices of Washington Township Post of the American Legion, was held in the Country Club House, Centerville on Tuesday night.

A short and "snappy" business meeting preceded the program, which was to have been followed by the installation of the Ladies' Auxiliary unit, but owing to the request made by the installing officer, Mrs. Samuels, State Historian of the Auxiliary, the matter was postponed until June 13.

Immediately following the meeting the program of the evening was opened with a short talk by Mrs. Samuels on the work being done by the Auxiliary. Following this a musical number was called for from Comrade Jack Fledderman, commander of the Hayward Post and a wizard at the piano.

County Recorder Bacon, who was a guest of the evening from Oakland, was called upon and responded with a plea to the ex-service men to have their discharges recorded. "Some of you may think it is rather a foolish move to have your discharge papers thus recorded, but do you realize that should you lose in any manner of means, your papers, that they cannot be replaced? Do you know that there are many things which you will have come up that will call for the use of this document? This is the reason we are urging all men to have their documents recorded. You can obtain, without expense, a certified copy of the paper showing every item thereon. If you request

(Continued on Page Two)

IN HONOR OF OUR MOTHERS

Governor Stephens has appointed Sunday, May 14th as "Mother's Day." Flags will be flying that day and white flowers worn in honor of our mothers.

At the Congregational Church of Niles the pastor will preach a sermon in harmony with the thought of the day upon "The Heart of the Home."

NOONDAY LUNCHEON AT NILES BECOMING POPULAR EVENT AMONG TOWN'S BUSINESSMEN

With 24 present, the weekly noon-day luncheon of the Niles Chamber of Commerce assumed a very business-like atmosphere when matters vital to Niles were brought before the meeting.

Mr. Jones reported that he had communicated with the Board of Supervisors at San Francisco, but had only heard from them through a round-about-way. He said that Homer Thomas, Oakland Tribune man, had called him up asking him what he knew of the action of the supervisors reported in a San Francisco paper purporting to have been taken at their recent meeting relative to the visit to Niles on the Dumbarton project. Mr. Jones stated that he had not heard from them, but that the article stated that the supervisors wanted still another postponement on account of the "Bunch of Movie Queens" that were visiting the city on that day.

Inasmuch as definite word has not been received no action was taken other than to say that it looks like a little jockeying on the part of the San Francisco Supervisors to gain a

LEGION AUXILIARY WILL BE INSTALLED JUNE 13

The Women's Auxiliary of the American Legion was not organized on Tuesday as had been the plan. This change was made at the request of Mrs. Samuels, state historian of the Auxiliary, who stated that the work could be done better if the ladies were given the entire evening.

All prospective members and those eligible for the Auxiliary are urged to communicate with the Post Adjutant to insure receiving notice of the installation.

The meeting will be held in the Odd Fellows Hall in Niles.

DUSTERBERRY NOW HEADS NEW BOARD SCHOOL TRUSTEES

The new Board of Trustees of the High School held their annual meeting and election of officers at the high school on Saturday.

The organization of the board was about the only matter which came before the board with the result that Fred Dusterberry was elected as president of the board to succeed F. T. Hawes, who retired and A. T. Biddle, reelected as secretary.

NEWARK TO HAVE REPRESENTATIVE AT "DAYS OF '49"

Deputy Sheriff George Wales will represent the Newark Chamber of Commerce at the Days of '49 Exposition to be held at Sacramento from May 23rd to 28th. Mr. Wales, who is considered an "old-timer" in Newark, will do credit to Newark and Alameda county. One will not feel exactly at home at the big show unless he wears a bunch of whiskers, and it is presumed that our worthy police officer has gone into contemplation to grow the necessary crop.

Sacramento never does things by halves, and A. S. Dudley, the man in charge of the big show, is conceded the best promotion man in the west.

So far as the United States is concerned, the history of California begins at Sacramento, and the people who attend the Exposition will be treated to the days of '49 in duplicate.

NEWARK C. C. HOLDS SPECIAL MEETING

The Newark Chamber of Commerce met in special session Tuesday evening in conjunction with delegates of prominent citizens from Centerville and Irvington. The speaker of the evening was Frank W. Hudson, who is erecting a laboratory in Newark.

CITY AND COUNTY OF SAN FRANCISCO

BOARD OF SUPERVISORS
Clerk's Office
Room 235 City Hall

May 9, 1922

F. V. Jones, President,
Niles Chamber of Commerce,
Niles, Calif.

Dear Sir:

This is to advise you that your letter under date of May 5th, relative to proposed meeting of the various Chambers of Commerce at Niles, Saturday May 13th, on the Dumbarton Bridge project, was read to the Board of Supervisors at its regular meeting yesterday and I was directed to advise you that this date is most agreeable and five members of the San Francisco Board of Supervisors will be present on that occasion.

Very truly,
J. S. DUNNIGAN,
Clerk.

CALL FOR \$150,000 BOND ISSUE WILL PROBABLY FOLLOW ACTION OF GENERAL HIGH SCHOOL COM.

Suggesting that the High School Trustees call a bond election in the sum of \$150,000, the general committee which, under the guidance of Country Club Committee for a new High School, has in the past few weeks endeavored to solve the trouble at the high school for a building adequate to care for the increasing enrollment, concluded its work at the high school building on Monday night.

The general opinion was, as should be expected, that a new high school was not only wanted, but an absolute necessity, therefore upon conclusion of the first meeting, the Country and Men's Clubs committees obtained data which was taken up at the meeting Monday night.

NILES CIVIC CLUB PREPARING FOR DECORATION DAY

The Niles Women's Civic Club met in the Guild Parlors of the Congregational Church on last Monday, at which time the matters pertaining to the dedication of the memorial park in Niles was taken up.

Dedication arrangements will be rushed by the members of the club, who are in hopes they will be able to procure a flag pole to be placed in the proposed park, also the supervisors have been asked to complete the curbing, which they promised would be done.

The Southern Pacific Railroad will be asked to make a fill in the property where a little gully runs alongside their property. The American Legion will be asked to take charge of the dedication exercises.

TOYON BRANCH OF BABY HOSPITAL TO HOLD GARDEN FETE

The Toyon branch of the Oakland Baby Hospital met at the home of Mrs. G. W. Wright, in Centerville on Tuesday afternoon when plans were completed for the garden fete they are to hold at the home of Mrs. J. C. Shinn on June 10.

Tea will be served, and cards indulged in by those who so desire.

Preceding the affair at Mrs. Shinn's, however, plans were completed for taking care of the paper doll concession which has been assigned to the local Toyon branch, when the Leaves of the Toyon Baby Hospital will hold a garden fete at the home of Mrs. C. E. Hume in Oakland. This fete is for the children from 12 to 15.

ORDER OF EAGLES TO GIVE BENEFIT DANCE

The Fraternal Order of Eagles, No. 1695 are to give a benefit dance at I. O. O. F. Hall, Alvarado, this coming Saturday night. Music will be by Johnson's orchestra of Niles, and a good time is assured all who attend.

CHANGE MADE IN MEN'S CLUB PROGRAM

Owing to the death of his son, Mr. Wigginton Creed, who was scheduled to speak at the Men's Club meeting to be held in the Country Club House tomorrow, (Friday evening), will not be able to address the club.

In the place of Mr. Creed, the committee has announced that C. C. Wilson, of Alameda, will be the principal speaker. Mr. Wilson is known as the silvery tongued orator of Alameda county.

Mr. Wilson's topic will be "Romance of Business."

GARBAGE DISPOSAL

TAKEN UP BY NILES CHAMBER OF COM.

The matter of the disposal of garbage was taken up at the meeting of the Niles Chamber of Commerce at their regular meeting held last Thursday night at the Court House in Niles.

It was explained to those present that the present dump was of a merely temporary nature, and with the oncoming summer months and the flies, it would be necessary to insure a garbage dump.

Many methods of disposal were talked of, including an incinerator. Following the discussion, a committee of three was appointed to look into the matter.

Another interesting item was the report of Judge Richmond about the meeting held in Redwood City on Saturday of last week. The meeting was called for the purpose of getting together on the Dumbarton Bridge. "We were treated royally," said the Judge, "and I want to say those people mean business."

WHIST PARTY TO BE HELD BY AMERICAN LEGION ON MAY 23

The American Legion of Washington Township have announced they will hold a whist party in Odd Fellows Hall on May 23.

Special stunts have been arranged for the evening and the committee in charge state those who attend will receive all they could expect for the money.

The usual prizes will be given.

AMERICAN LEGION IS PLANNING EXERCISES FOR MEMORIAL DAY

Washington Township Post of the American Legion will observe Memorial Day in a fitting manner, according to the announcement of the committee which has been appointed for the purpose of making arrangements.

The committee, which is headed by Past Commander Herbert Fahey, is exceedingly anxious to get the names of the G. A. R. members who reside in the Township. It is the plan to form some central place for the exercises. It is the desire of the committee to arrange for cars to care for the old veterans and hence their anxiety to get the names of those living in or near the Township who would care to take part.

If you know of such an "Old Timer," just drop a card or note to the "Memorial Day Committee, American Legion, care The Register," and the same will be appreciated.

S. F. SUPERVISORS TO BE GUESTS AT BANQUET, BELVOIR SATURDAY NOON

Date Suggested by Niles Chamber of Commerce Is Accepted By Supervisors

DUMBARTON BRIDGE TOPIC

Committees From Chambers of Commerce In Three Townships Will Attend the Meeting

According to a letter received late Wednesday, which is published elsewhere on this page, the Niles Chamber of Commerce will be hosts to the San Francisco Board of Supervisors at a banquet at the Belvoir Hotel.

Committees from the Chamber of Commerce in Livermore, Pleasanton and throughout the township will be asked to participate.

The meeting is the outgrowth of a meeting which was held in Redwood City recently, at which time representatives from Washington Township were present. At the request of the supervisors of San Francisco, the meeting is being called at the Belvoir next Saturday.

The committeemen who will represent Niles at the banquet are Judge Ralph Richmond, F. Vernon Jones and Fred W. Smith.

R. O. MOYER TO BE PRINCIPAL OF PLEASANTON HIGH

Rounds Out 14 Years Service In the Washington Union High School

After 14 years of arduous work and affiliation with the Washington Union High School, R. O. Moyer, vice-principal, will leave here for a new position in Pleasanton, where he has been selected as principal of the newly organized High School.

The Pleasanton district, which was formerly part of Livermore High School district, had many applications to consider for the position, but immediately upon having the authority the high school trustees communicated with Mr. Moyer, urging that he accept the berth. This he did when the trustees met his proposition.

In losing Mr. Moyer, the people of Washington Township are not only losing a man of the best qualifications, but also one who has constantly and consistently been an aid in every way possible. The students of the high school will undoubtedly miss their vice-principal more than any, and as a mark of tribute, regardless a former rule to the contrary, are planning on giving Mr. Moyer a rousing sendoff, so it is rumored. He has very little to say as regards his leaving, and while it is quite true he is accepting a far better position than he held here, he has some regrets in leaving.

THE BOND ISSUE

The action taken by the citizens who met at the High School on Monday evening, was one that was neither hurried nor done without deliberation. The matter of the need of a high school is conceded by everyone to be a necessity, and, seemingly the only hitch was the proper amount to allow the Trustees to spend for a building.

The amount suggested, \$150,000 is little enough, and still big enough, to build a high school building. It is only a matter of possibly ten years when further additions will be needed and then the people will probably realize that the rest of California has progressed through their wonderful educational facilities and Washington Township will be among them and willing to "go the limit."

It is a known fact that every possible step is being taken to close forever the chances of warfare, and still, when we consider the matter, how are you going to do it, if not through education? How are you going to educate without facilities?

The matter of taxation and assessment will be explained away, showing that the amount needed for the school will amount to less each year than is used by the average family for moving pictures in a month.

THE BUS LINE

We have purposely sidestepped, in the past, making any remarks about the bus service, but after hearing many comments on the streets of Niles and going through an attempt to get to Oakland on Sunday, we are of the opinion that somebody should say something, that is, something different than we were inclined to say on Sunday, but anyway, something either to or about the Bus Company.

Washington Township owes itself on the many spots it has that like wonderful picnic grounds, and has received much publicity, hence many people come out here to enjoy their Sundays. Many of them have to spend half the day trying to get in a bus to get back home in time to eat breakfast Monday morning.

To our knowledge there were at least ten people waiting patiently till a bus came along to get in. While it is true the busses came, the people didn't get in. THEY WERE CROWDED TO OVER CAPACITY.

We want the people to visit here. It is one of our assets. Let's take steps to make them feel comfortable and feel THAT THEY ARE GOING TO BE ABLE TO GET BACK HOME.

FISK

TIRES

RED-TOP 30 x 3½

Extra Ply of Fabric—Heavy Tread

Price \$17.85

FOR poor roads, for heavy loads, for hard use anywhere the Fisk Red-Top cannot be equaled for small cars. An extra ply of fabric and a heavy tread of extra tough red rubber make a strong tire built to meet exacting conditions.

Time after time one Red-Top has outworn three ordinary tires. Its distinctive looks indicate your selection of a high-grade tire while its extra mileage more than justifies your choice.

There's a Fisk Tire of extra value in every size, for car, truck or speed wagon

(Continued from Page One)

a Certificate in Lieu of Lost or Destroyed Discharge, you will receive a paper with nothing but the plain and bare statement of the facts that you have been in the service and had been honorably discharged. The items which a man is, and should be proud of, are among the missing on such a document and it takes from three to five months to obtain the copy.

Recorder Bacon was followed by a musical number. Miss Anna Lee Purdue, of Oakland, sang two beautiful songs. Miss Mildred Herman of San Leandro, accompanied her at the piano.

State Adjutant Morgan Keaton then addressed the meeting with an impromptu talk on "What the Legion Means." "We are on a principle. We have, by our preamble, a path clear cut, and which, from the inception attempted to follow this path, but by events we have been forced to veer from our course. Two reasons were responsible for this stepping from our selected path. The first was the care of the wounded buddies. When that 'grand old man,' Colonel Galbraith, who incidentally gave his life for this organization, assumed the commandship of the American Legion he investigated the condition of the hospitals in which the wounded buddies were supposed to have been receiving medical aid. He found that many of them were in so-called contract hospitals, which, before their arrival had never been hospitals and never would have been termed as such had not the government been paying them for the purpose. Commander Galbraith immediately took up the matter with Congress, members of which stated they did not believe such conditions existed as they were paying for the care of the wounded men.

"Commander Galbraith did not tarry to argue the matter, but immediately called into play the American Legion state departments, who requested the posts near the hospitals to obtain affidavits of the men in the hospitals. This was done and the result was that Congress had affidavits in a stack two feet high. Needless to say that Congress was convinced.

"The second reason was the national bonus. The Legion stated to the members of Congress that an injustice had been done the service men and wished an adjustment. This is not a bonus, but an adjusted compensation. You ask why this is not a bonus. I will tell you. When the President of the United States went before Congress on that memorable day, April 6, 1917, and said, 'I want a declaration of war with Germany,' he also asked for a 'Universal Conscription Act' that the United States might successfully prosecute the war. Now, what was meant by the Universal Conscription Act? The drafting of the man-power, railroads, munition factories and other industries which could be used for the successful prosecution of the war. The man-power was drafted for the most hazardous part, and the balance for the assistance. They paid the men who shouldered the hazard at the rate of \$1 a day, and the men who, although they served their country in their respective ways, \$1 per hour. In this manner they placed a tax on the man who shouldered the hardest job. Is that not an injustice? The railroad companies were paid a billion dollars for "adjustment;" they claimed a loss to that extent. Contractors came in for another adjustment. Did not the soldiers have a claim? The Legion took up the matter with congressmen and attempted to get out a suitable bill and I believe every congressman had a bill on adjusted compensation. After wrangling pro and con, the finance committee of the Senate returned the bill to the Legion with instructions that meant this, 'If you want a bill passed, draft one.' Hence the birth of the 'Five-fold Adjusted Compensation Bill.'

The interesting sidelights brought by State Adjutant Keaton placed the matter of the work being done by the Legion in a clearer light than any speaker that has ever visited the local Legion post. He urged the members to assist in the campaign for additional members throughout the state.

To have a Washington Township meeting with speakers outside the pale of the Legion, and not have due representation from the Township did not appeal to those who had charge of the arrangements. It was not necessary, however, to wonder who to get. Washington Township possesses one of the most capable speakers in the entire county. He is a stand-by for the Men's Club and incidentally has gained the title of "Daddy" of the Washington Township post. He was called upon for a talk immediately following the State Adjutant. F. V. Jones, of Niles, who

NILES

Mrs. M. J. Silva and daughter visited the home of Mrs. Clement Rogers of Mission San Jose last Saturday.

Joseph S. Ferry made a record of marking 40 acres for tomatoes the past two weeks.

Mrs. J. S. Duarte is on the sick list.

Mrs. M. J. Silva and family were guests over Sunday of Mr. and Mrs. J. S. Ferry.

Mrs. K. Duffey visited with her daughter, Mrs. E. H. Martin, at the latter's home in Oakland Sunday.

Invitations announcing an "at home" were issued this week by Mrs. George Donovan.

Mrs. Hansborough, of Oakland was a week-end visitor at the home of Mr. and Mrs. Fred Drew.

Mr. and Mrs. Harvey Braun entertained guests from San Francisco at their home in Niles over Sunday.

Miss Nellie Duffy of Butte, Mont., was a visitor last week at the home of her aunt, Mrs. Chester Hatch.

The Jacobus-Bernard party, that motored south returned last Monday from a ten day's trip. They went over the line at Tia Juana for a short stay and in one day's travel accomplished over 300 miles. All report an enjoyable journey.

The Niles Bridge Club held its final meeting for the winter series on Thursday of last week at "Bluebird," near Sunol, with Mrs. J. E. Jacobus as hostess. The ride up and return through the canyon is very beautiful at this time of the year. Card tables were placed on the wide open porch and several guests added, making four tables of players. The score for the season was given by the secretary, Mrs. Trask at the conclusion of the games and gifts received by Mrs. B. L. Tyson and Mrs. Emily Martenstein for highest points; Mrs. C. H. Hatch and Mrs. E. P. Mayhew; for highest in honors; Mrs. Robert Fisher, Mrs. F. V. Jones for lowest in points; Ms. J. E. Jacobus lowest in honors; Mrs. Guy Jacobus received the guest prize. Miss Nellie Duffy of Butte, Montana, Mrs. Guy Jacobus of Oakland, Mrs. Rollins of Berkeley, Mrs. Bernard and Mrs. M. Jacobus of Niles were guests for the p. m. A social half hour over the tea cups ended an enjoyable day.

ALVARADO EAGLES ELECT OFFICERS

The Fraternal Order of Eagles of the Alvarado Aerle No. 1695, held their election of officers at a meeting held on Monday night of last week.

The officers elected will take office on the first meeting in June, at which time a big celebration is being planned to mark the installation.

Those elected for the ensuing term were: President, A. E. Vargas; vice-president, Peter D. Brown; Chaplain, M. D. Louise; secretary, T. E. Amaral; treasurer, H. Hendricks; inside guard, Richard Silva; outside guard, T. C. Silva and trustee, A. D. Moffitt.

The meeting at which the installation will take place is to be held on June 5.

can talk and keep his audience from tiring, kept the Legion boys in fits of laughter and still brought a message which during the serious points of his talk, was made clear.

Mr. Jones stated when asked to speak, that he would not attempt a speech, but would talk impromptu. He did, and everyone in the hall was of the opinion that his impromptu talk was the best they had ever heard. The theme of his talk was "If you want anything, fight for it."

"Gentlemen: I have learned that for which you have been organized. It has been brought to me in a clearer light than ever before. Your adjutant has placed the matters in question in a clear light and in so doing intimated that you were working for a common good. I beseech you to start at home. Commence your work in your home localities."

Mr. Jones' talk was interspersed with many illustrative stories of a witty nature.

The speeches were concluded with Mr. Jones' talk and were immediately followed by a luncheon served by the women, who are to form the Washington Township Auxiliary.

Dr. Carter of the Livermore Post, addressed the assemblage during the luncheon, stating Livermore had purchased a home site for club house purposes, and the Women's Improvement Club were giving a Rodeo for the benefit of raising funds. Dr. Carter invited all present to participate in the affair.

The posts taking part in the meeting Tuesday night were: Livermore, San Leandro, Pleasanton and Hayward, with Washington Township Post as host.

Any one of these reasons puts the De Laval in a class by itself—

1. Over 2,500,000 in use.
2. Won 1,091 grand and first prizes.
3. De Laval butter has won first prize at every meeting of the National Buttermakers Association, with but one exception.
4. 62% of the separators in Minnesota are De Laval.
5. Practically all creameries use De Laval.
6. Endorsed and used by Government Experiment Stations, colleges and dairy authorities.
7. Thousands in use from 15 to 20 years.
8. De Laval have led in every important separator improvement.
9. Made in the largest separator factory in the world.
10. Backed by the most thorough system of service.

There are many other reasons why you should own a De Laval—let us tell you why.

Piston clearances

4/1000 of an inch when cold
1/1000 of an inch under fire

An automobile engine having a 4" bore will have when cold a clearance between its pistons and cylinders of approximately 4/1000 of an inch. When the same engine has been heated to operating temperature, this clearance will have decreased 75%, or to 1/1000 of an inch.

Likewise, a main crankshaft bearing having a clearance of about 1 1/2/1000 of an inch when cold, will show a decrease in this clearance at operating temperature to less than 1/2/1000 of an inch.

All oils lose viscosity, that is, they become lighter in body when subjected to the heat of engine operation.

An analysis of Zerolene shows that the differences in its body at the various engine temperatures, from cold to operating temperature, follow in close relation the decrease in bearing clearances.

The right body at all operating temperatures

For this reason Zerolene oils have at all engine temperatures exactly the required body to splash and flow freely into the fast-moving, small-clearance bearings to provide an adequate film of lubricant.

Because of their "oiliness," Zerolene oils cling to bearing surfaces, and at the same time offer in themselves a minimum of resistance to the engine power going to the driving wheels. For this reason they give perfect lubrication and permit the development of the maximum power, speed and gasoline mileage of the car.

choice in the field. "I am daily calling on people and asking them point blank if they believe I am the man for the place. Their frank answers have encouraged me to the extent that I am working that much harder."

"Nothing to it!" says Joe Roderick, "I feel just as good as elected right now. I have the assurance of many who I know will stay with me, and that is satisfactory for me."

"Why should I withdraw?" said Pat Murphy, "I want the job and I am going after it."

"Let 'em fight it out," said Andy Anderson, "I'm in the race and am working right along with the expectations of winning and that is what I went in it for. It is my intention to stay with it regardless of what the other fellows do."

"Too busy working on my own campaign to bother with any fights," said Tom Silva, "I won last time and I intend to leave no stone unturned to hold my job."

ALFALFA IN THE ORCHARD

Growing alfalfa in orchards as a stimulus to the trees is practiced quite generally in the Yakima Valley of Washington, according to H. W. Savage of Yakima, with whom I recently had a visit. Savage is one of the prominent and independent fruit growers and shippers of the Pacific coast who, for many years has made quality fruit his aim. "My plan is to plow up the alfalfa and re-seed each year," said Savage. "In this way I feel that the nitrogen gathered by the alfalfa is made available to the trees. I do not believe in the practice of growers who plant alfalfa and let it stand season after season, for I don't think this practice permits the nitrogen to get into the soil and reach the feeder roots of the trees. My method is to plow the orchard in the fall and work it down well. Of course this does not destroy all the old alfalfa, but I add a little seed to keep the stand uniform each year." Savage makes a trip to New York each season to arrange for the marketing of his fruit, mainly pears and apples. He has been in California recently studying cultural and marketing methods.

ALVISO DRAMATIC CLUB WINS PRAISE IN 'SAFETY FIRST'

The Alviso Dramatic Club presented their play, "Safety First" at the Odd Fellows Hall in Alvarado on Saturday evening and scored a hit for the second time.

Miss Elsie Costa, principal of the Alviso school has been coaching the cast and deserves much credit for the successful production of the play.

The members of the cast were: Joe Duarte, as Jack Montgomery, a young husband; Nick Lewis, as Jerry Arnold, an unsuccessful fixer; Sam Costa, as Mr. McNutt, a defective detective; Alvin Joseph as Elmer Plannel; Wm. Amaral as Abou Ben Mocha, a Turk; Alice Duarte as Mabel Montgomery, Jack's wife; Irma George as Virginia Barrington, her younger sister; Madeline Rose as Mrs. Barrington-Bridger, their mother; Viola Amaral as Suleika, a Turkish maiden and Irene George as Mary Ann O'Flaherty, an Irish cook.

"Safety First" is a merry comedy of errors in which the students have made most of in previous performances. At Hayward the success of the juvenile Thespians was said to be complete and it was following this performance that they were asked to give a performance at Alvarado. Following the performance a dance will be held.

KENNEDY VISITS TOWNSHIP

Assessor Louis J. Kennedy was a visitor throughout Washington Township during the past week, calling on many old friends as well as many new ones.

Mr. Kennedy stated that he was not on a campaign tour, but merely had business to transact in the Township and while here, visited many places in company with Mr. Manuel George, the efficient deputy in the Township.

While in the Register office Mr. George took occasion to mention the fact that he is ready at any and at all times to assist the ex-servicemen with their exemption papers on taxes. "Of course, I can not hunt them up; that would be a very lengthy undertaking, but if they will let me know where to find them, or even better, they can visit me in Centerville when in town; I will take particular pains to see that they are taken care of," said Mr. George.

JUDGE MATTOS FINES SPEEDERS

Judge Mattos had a large audience of speed violators Monday morning, and fined a number, continuing several cases until next week. Mrs. J. T. McGuire of 278 Yosemite street, San Jose paid \$15 for traveling 46 miles an hour. A. E. Thayer, also of San Jose sent \$10 bail to the court. Joseph Hersinger an auto salesman of Van Ness avenue, San Francisco forfeited \$10 bail. M. E. Giacomizzi of Milpitas, son of the postmaster of that town, paid a \$10 fine. Bail was forfeited in the case of Dr. E. G. Musser, 262 Vernon street, Oakland; Manuel Rowell of Fresno and A. E. Wilson, manager of the Shell Oil Company at San Jose.

NILES, CALIFORNIA

FORUM

HAS IT EVER OCCURRED TO YOU,

How very important is your single vote? Too often do we fail to appreciate this fact, and our negligence may have a vital effect upon the result of an election. Everyone knows how close the last election of the township ran, showing how the vote of a single citizen could have turned it. If one or two women who didn't "bother" to "dress up" and go all the way up town just to vote had realized the responsibility of their citizenship, and had not neglected their duty to the community, their's might have been the deciding votes.

Of what avail, if our government gives us the privilege of suffrage and we consider it a "bother." And how can we gauge public sentiment, or know public desire, if our citizens will not come out and tell us, thru the ballot? What is there to encourage the right kind of men and women to come forth and offer themselves as our candidates and representatives, if we, the public, will not back them up with our votes and support?

So let us heed our past negligence and its outcome, and every man and woman of us come out at the next election. There will be men on the ballot who will look for our votes and encouragement. We must not fail them, for if we do, the men we do not want will step in and do the things we do not want and we will have ourselves to blame.

And there is that other danger—that of voting for anybody—in our zeal just so as not to waste our own vote. This is even more disastrous perhaps, for a shot vote like this might run against the man you do want, and so defeat the very good you have tried to do with your vote.

After all, we can only do our best—and our best will be to vote for the candidates we know we want—and no others. But above all, we must vote, for not to do so is to admit our indifference to our nation, our laws, our citizenship, an admission of slipshodness, and most often, of sheer laziness.

AN OBSERVER

Niles, May 10, 1922

Dear Observer:

Your most recent communication relative publishing your "stuff" at hand and we must state, perforce publicly that you need never fear our not using good constructive material such as, we consider, you write.

You mentioned your criticism of the paper. This to us acts as a stimulant and is most gratefully received. We do not and cannot claim to be anywhere perfect. We do not feel that anyone in the public eye, and newspaper writers are much so, has any business to take exception to honest criticism. As for the use of the columns, what is a newspaper for, if not a medium for the exchange of thought? Would that more visualize happenings of the Township and pursue the course you have chosen to exploit ideals and make known opinions.

Send us some stuff on the High School and—
DON'T FORGET THE PROMISED VISIT!

Our treat—come and get some good things to eat

A good housewife won't take anybody's word about an article as important as an oil cook stove.

She wants to see for herself how it works and what sort of results it gives.

We don't blame her.

She is right.

That is why we are demonstrating the Florence Oil Cook Stove in our window.

An expert cook is doing all sorts of cooking right before your eyes and serving everything she cooks so you can judge the results.

Every good housekeeper will be interested and should make it a point to see this demonstration.

All this week.

NEWARK

Martin Welsh, attendance officer for Alameda county, made the Newark school an official visit Monday morning. Mr. Welsh serves 45 districts and furnishes his own means of transportation. In that same territory eleven nurses and seven constables are employed. Were more attendance officers on the job there might be less use for the number of constables and nurses. An ounce of prevention is worth a pound of cure.

School Supervisor J. S. Bunker visited the Newark school last Friday and examined the eighth grade pupils in reading. There are fifteen hopefuls in the class, all of whom read to Supervisor Bunker's satisfaction.

START PAINTING AND DECORATING BUSINESS

Greenwood and Healy have announced they are now in readiness to handle any and all kinds of painting, paperhanging and decorating.

They expect, in the very near future, to open a store in Niles and are at the present time busily engaged in making arrangements with the wholesalers for their materials.

The store in Niles will carry a complete line of the best materials, according to the announcement. The firm is at present accepting contracts for work.

PRESS CHRONICLES ODD CEREMONIES

A minister in the Middle West, founder and for twenty years pastor of a church, married a couple while they were bathing suits, standing beside a public swimming pool. His church promptly preferred charges against him and will try him for the offense of conduct unbecoming a minister.

A New York judge had before him a prisoner charged with "slapping his old father." The offense was not serious from the legal standpoint since the slap had been undamaging to anything save dignity. The sentence was that the offender paste in his hat a written copy of the Fourth Commandment, "Honor thy Father and thy Mother," and agree to obey it. Commenting on the sentence, a court officer said: "It may sound foolish, but his neighbors will know it and talk about it, and public opinion will keep him well behaved in future."

In a Virginia court a woman accused of the serious crime of forgery was sentenced to pay a fine of one dollar and spend one day in jail. The court tempered the stern justice of impersonal law with the tender mercy of compassion for the helpless. The trial developed that the woman and her baby had suffered hunger and cold from lack of necessities the husband failed to provide, though able. The woman opened a letter addressed to her husband, found a government check for disability allowance, wrote the husband's name on it, cashed it, and spent it for clothes and food for herself and child.

An Indian woman "died and kept on living," according to the doctors who attended her. The strange case was that of a mother, run over by a train and fatally injured, who was kept alive and conscious for hours, with mother-love anxiety over her children, after her heart had ceased to beat, according to attending physicians.

NEW INDUSTRY IN CENTERVILLE

Business-men of Centerville are boasting that while other communities are inviting industrial enterprises to come into their midst, the Centerville community is setting an example of starting a mammoth industry of its own. It was broached at the Chamber of Commerce meeting Friday night and is being rapidly carried out.

Someone uncovered one of Centerville's hidden resources, when he stumbled upon the fact that Centerville tomatoes can be shipped east when green and will ripen in transit, without detriment. Then it remained for the Chamber of Commerce to provide a packing plant for shipment. This is being planned for and from present indications will soon materialize. The plant will house several hundred workers, who will work two shifts a day from the appearance of the first medium sized tomatoes till the fall.

Although the Centerville Chamber of Commerce is nearest to the Newark Chamber of Commerce, which originated the idea of a big bay bridge near the Dumbarton cut-off, the Centerville body has been the last to give the Newark body the official O. K., which was done Friday night, May 5, at the meeting.

Mr. and Mrs. Joe Ferreira Jr., of Niles, living on Meyer's ranch, were given a surprise party Saturday, May 6. The evening was spent in dancing. Refreshments were served. The people left in the early morning, wishing Mr. and Mrs. Ferreira all kinds of good luck. There were about 40 people present.

The Boss—"Commencing tonight, I want you to turn off the electric lights in the henhouse promptly at ten o'clock, and switch them on each morning at four."

His Nibs—"Gee whiz! I may as well roost with the chickens and be done with it!"

Orchard and Farm.

The test of a man is whether he lives on, for or with his neighbors. Most of us hate the first, admire the second and love the third.

Most men slam doors, but few women close them—so there you are.

MOTORCYCLE RACING STARS HEADING FOR SAN CARLOS

Four of the world's greatest motorcycle racing stars are enroute to San Francisco to establish training camps for the national championship motor-bike races which will be staged over the San Carlos Speedway on Sunday, May 14th.

The riders are Ralph Hepburn, the American champion for ten and twenty miles, Otto Walker of Oakland, 50 mile record holder, Ray Weishaar, five mile champion and Fred Ludlow, the dirt track king. They will make their headquarters in San Mateo and Redwood City, working out their fast machines on the Speedway both afternoon and morning until the day of the races. Thirty-five or forty riders are expected to participate in the 20, 30 and 50 mile events.

The star motor-bikers are strong rivals of the automobile racing fraternity for the two-wheelers have been able to show as great a speed on the Fresno, Los Angeles and Indianapolis Speedways as the four-wheel demons. Elimination and qualifying trials will be held next Wednesday, the riders being called upon to show a speed of 105 miles an hour to be eligible for the championship races. Popular prices will prevail.

The meet will be a benefit for the Widows and Orphan's Aid of the California State Highway Patrolmen's Association. Les Manning is chairman of the racing committee.

NOW WEARING FULL-DESS SUIT

Since racing against time and the usage of motorcycles have become the fad of the office force at the California Nursery, and the establishment of the Habitué de Bachelleur, one has to be very careful of dress and manners.

Having occasion to visit the Nursery grounds on Saturday afternoon, we were impressed with the solemn appearance around the office. Upon attempting to gain entrance to the office, we were gruffly informed to "Go Round." In other words, we had on a suit of coveralls and had no business attempting the front door.

We decided the party, or parties, we wanted to see were not in the office, so scouted the yard and alas, discovered in the dirt distance a young man stalking around like a bronze turkey, all dressed up in a

full dress uniform—tut, tut, our mistake, a suit. After timidly approaching the party we asked without looking up, if he would be so gracious as to kindly inform us where Mr. Southworth could be found, and we were immediately informed "Inside this suit" and lo and behold, it was none other than he. Getting a little bolder we looked over his shoulder and there—right behind him stood H. B. Stafford immaculately dressed in the same paraphernalia. They finally informed us they were overseeing the work of their racers, with an idea of entering them in the sweepstakes, and we noted a whisk broom and a bunch of red wood stakes laying nearby. From now on all nursery employees, especially the office force are to wear this uniform when attending the repairs on their various cars.

NEWARK GRAMMAR SCHOOL TEAM IS DEFEATED BY NILES

Young America came to the surface Saturday, when a number of the Grammar School boys were patiently awaiting the trial of the new fire siren in Niles.

The Niles Grammar School met and defeated the Newark boys by a score of 4 to 3, according to the information gleaned by the bystanders from the attitude of boastfulness of the Niles lads. The following conversation will give an idea of their sentiments over the victory:

"Gee, you missed somethin' by not seen' the game, said the first future voter as he appeared on the scene near the fire house, and approached a larger boy who attends the big school.

"Who won?" was the answer coming from the larger boy.

"We did, 4 to 3. And most of the players on the Newark team were high school fellas."

Which brought forth the remark from the larger boy, "Aw, you're crazy."

"Well, they were big enough to go to high school anyway, and we beat 'em."

And so goes young America, said the by-standers.

COURT HELD IN NEWARK SCHOOL

The auditorium of the grammar school was turned into a temporary courtroom Monday morning when Deputy District Attorney Preston Higgins tried a case for Judge John G. Mattos, Jr., that necessitated the appearance of forty witnesses. In order not to disturb the school program the hearing proceeded. The case was against Earl Thompson, a grown boy, charged with striking Alfred Amaral, a student at the Newark school. Through the cooperation of Professor F. Musick, head of the Newark school, the trial was held and the District Attorney ruled that the Thompson boy stay away from the school grounds hereafter. Many students testified as to the trouble between Thompson and Amaral, which started during a ball game. Constable Thomas Silva officiated as bailiff.

CAROB TREES PROVE FROST-RESISTANT

Observers were agreeably surprised to note the degree of frost-resistance shown this past winter in extensive planting of carob trees in Southern California.

Of the thousands of young trees set out along the highways, few were seriously injured, although neighboring citrus groves were in some cases killed or badly damaged.

This frost-resistant quality of the carob is in the nature of a surprise to many horticulturists, who have predicted difficulty in acclimating this tree in California.

Yet this should not be surprising to those who have made a study of plant growth, asserts Lawrence H. Holmes, considered the best posted carob authority in this country. Mr. Holmes points out that in Southern California the carob finds ideal soil and climatic conditions, exactly similar to those of Palestine, its native haunt. In fact, says Mr. Holmes, our "mesquite" is a wild carob, upon the root of which the commercial tree may be budded successfully.

Having previously shown its hardness in withstanding drought, the carob seems to have come through with "flying colors." Its commercial future, of course, remains to be demonstrated, but those who have been studying this interesting tree and promoting its culture have explicit faith in its ability to make at-

ARM SIGNALS FOR AUTOISTS IN STATUTES OF CALIFORNIA

Chas. J. Chenu, Chief of the Division of Motor Vehicles, says that a great many operators of motor vehicles don't know that Section 20 of the Motor Vehicle Act requires that proper signals be given by them before stopping, turning or changing the course of such vehicles, and if such vehicles are so constructed that the signals cannot be given by the use of the hand and arm as to be plainly visible, they must be equipped with an approved mechanical or electrical device adequate to give the three distinct signals as required by the hand and arm. The use of a signal device that shows only the stop signal is in violation of the law and to permit the use of such signal will lead to confusion in traffic and eventually a disregard of all signals by the motoring public.

Section 20 also provides that no person shall operate a motor vehicle so loaded or constructed as to obscure the driver's view to the rear, unless the vehicle is equipped with a mirror so located as to reflect to the operator a view of the highway for at least 200 feet to the rear of such vehicle.

A number of accidents and near accidents will be avoided if the motoring public will get a copy or a synopsis of the motor vehicle act and study it until they know it, for there is no good reason to offer why when a person who assumes the responsibility of operating a vehicle on the highway should not be familiar with the law covering such operation.

The opening of real spring weather is here and California's highway system is being put to the test to accommodate the throngs; on business and pleasure bent. In many places the wide out-of-doors calls, and the smooth roadway tempts the operator to gain a little on Father Time, it is in the blood of some to do so, to the extent that they are a menace to the motoring public.

The Chief of the Division of Motor Vehicles is sending out a warning to all operators to exercise caution and keep within the law. There are ample opportunities for enjoyment without jeopardizing safety. This fact is recognized by nine-tenths of the motorists, who have a decent regard for the rights and welfare of others. On the other hand, a few drivers, through recklessness, and disregard of the laws, not only endanger themselves but all others as well. To these operators the Department intends to devote special attention, and is asking the assistance and cooperation of all motorists and the public in a safety campaign.

OAKLAND NATIVES LOSE TO ALVARADO

The Alameda Sugar Company team took the Oakland Natives into camp last Sunday by a score of 13 to 9.

This is the second game the Sugar men have played, gathering in the long end of the score each time.

118 MILES AN HOUR ON MOTOR CYCLE AT CARLOS

Pronouncing the San Carlos Speedway to be the fastest board track in the world, Otto Walker, an Oakland boy, who returned from the south yesterday afternoon to prepare for the State Highway Patrolmen's Widows and Orphan's motorcycle meet at the Peninsula course on Sunday, May 14th, sent his huge racing motor-bike around the speedway at a faster speed than has been shown by any of the automobile race kings. Walker covered ten miles at a speed of 118 miles an hour.

Ray Weishaar, Ralph Hepburn, Jim Davis and Freddie Ludlow, all world's record and championship holders for certain distances, were the other drivers who breezed around the course many circuits, all cutting the turns close to Walker's speed, but none equalling the Oaklander's mark. The stereotyped alibi of "I wasn't trying hard," was offered by each. Motor racing fans who watched the work outs declared that Walker's fast time was occasioned by his having just the proper gear ratio for the track on his first trial. The others will probably copy his lead for practice from now on.

Chairman Les Manning of the racing committee expects between 30 and 40 great riders will start in the championship events.

"Speed" Raymond of Seattle and "Augie" Walters of Chicago, two of the most desperate chance-takers in the two-wheel motor racing sport, checked in this week and will have their motors out for practice the latter part of the week.

Paul Derkum, former world's champion of the motor-bike game, will come up late this week from Bakersfield to coach his protege, Freddie Ludlow, for the 50 mile championship race.

tractive profits for almost an indefinite period, as the tree is very long-lived and quite free from disease.

The pods are ground and used in manufacturing breakfast foods, stock foods, syrup and various kinds of patent preparations for both human and animal consumption. One of the most profitable outlets promises to be the manufacture of soda fountain syrups, the exceedingly high sugar content of the carob making it particularly valuable for this purpose, and its syrup combining readily with various flavors.

Hundreds of tons annually of carob pods are imported to this country from districts bordering on the Mediterranean. California planters hope to supply the growing demand with home production.

The New Cletrac "F"— Ideal for Orchard Work

This type Cletrac is an all-purpose tractor with special qualifications for orchard work on level ground. Works easily over wet or sandy soil. Weighs only 1820 lbs. Quickly convertible into either of the other two types.

Here's the type Cletrac F built especially for the fruit grower whose orchard or vineyard is on hilly or rough ground. This type can be quickly changed to either of the others.

HERE'S the tractor you've been waiting for—the new Cletrac Model F—with all the dependability of its famous tractor mate, the Cletrac Model W, and it sells at a price lower than we thought it possible to name for a high grade crawler-type tractor.

Compact—low-set—smooth-bodied—Cletrac F works under and around the trees without "catching" or tearing low-hanging branches. It works closer to the trees than horses can—leaves no uncultivated patches—turns short into the next row of trees. Its remarkable power enables it to handle all the farm jobs you put up to it outside the orchard—belt work, hauling, and cultivating, too.

One hour of demonstrating in your orchard or vineyard will convince you that you have never before been offered a value in tractors such as this. Come in and talk it over. See the only tractor built without a single oil or grease cup!

ALVARADO BANK
ROBBER DECLARED
GUILTY BY COURT

Lefty Foley (Thomas Foley), the last of the Alvarado Bank robbers, has lost his long fight in the courts when the Appellate Court at San Francisco rendered an opinion last week, declaring that he was guilty of the robbery of the Alvarado Bank and affirmed the manner in which the District Attorney conducted the prosecution.

Sheriff Barnett, under the law, will now, at the expiration of thirty days from the rendition of the opinion, commit Foley to the San Quentin Prison and in accordance with the law he will then be taken to the State Prison at Folsom where all second termers are sent.

With the final disposition of the Foley case five men have been sent to State Prison from one year to life. Four of these were the actual perpetrators, Larry Fitzgerald, Thos. Foley, alias Howard, alias Lefty Foley; William Aberton, alias Rossi, also known as "Little Goog" and Jack Beebe.

COUNTY LIBRARIES

Children of migratory laborers, who move about the state with the harvest season are not losing contact with school training and library service.

By a law passed at the last session of the California legislature, it is the duty of the superintendent of public instruction to superintend, organize and maintain special classes of elementary grade for the education of children of migratory laborers in the rural districts of California. A state appropriation was made to carry out the provisions of the law.

Traveling teachers are provided. Both teachers and pupils adapt themselves to whatever housing conditions confront them. It may be a country church opening its doors to a motley array of children of all ages and grades whose parents are gathering walnuts in nearby groves. A vacant building may be pressed into service for the children of those gathering asparagus on an island in the Sacramento River. With much pride the itinerant teacher told of anticipating the luxury of an old coach that will serve as school room for her little flock whose fathers are engaged at a construction camp on the Southern Pacific Railroad.

These traveling teachers need to be live wires, but with all their resourcefulness they must have material adapted to the unusual needs of their ever-varying pupils. To meet these needs the county librarians of the counties having migratory schools have supplemented the state text books with material that could not otherwise be obtained.

In Kern county for instance, a school was conducted in a tent for the children of a group of cotton pickers. The school was composed mostly of Spanish children and the teaching of English and the principles of American government was simplified for both teacher and pupils by carefully selected texts, story books, pictures and maps sent by the librarian of the Kern County Free Library. Changes were made as frequently as desired and the service was of the same quality as that given to the most prosperous well-housed school in the county.

DEPENDS ON MEANING

"Well, my boy, do you like to go to school?"

"Yes, goin' to school an' comin' from school are all right, but it's an awful long time between."

—Orchard and Farm

The good old summer time is here—for some folks, glad; for others, drear. And so in winter, spring and fall—we find it just the same with all. A lovely world—or on the blink. It all depends on how we think. Orchard and Farm.

COUNTRY DISTRICTS
TO BE REPRESENTED
AT AD-MASK BALL

Eclipsing in spectacular features, in color, in lighting and stage effects all previous efforts of the Oakland Advertising Club to entertain in the Municipal Auditorium the East Bay folks and at the same time to get across a more serious theme "Truth in Advertising," the seventh annual Ad Masque is being rapidly whipped into shape for production night of May 20th.

Under the direction of Miss Marie Allen, Oakland's noted dancing teacher and originator of pageantry in various forms, three hundred pretty girls are being rehearsed for their part in "Aladdin," the pantomimic drama-spectacle as prepared for the stage, from the "Arabian Nights" story, by George Cummings. Not only is Miss Allen rehearsing the dancing girls, but she has originated the dances and the costumes to be worn. This is her most ambitious effort in dance pageantry.

Meanwhile Oakland's neighbors are getting ready to enjoy the big fun night. They have accepted the invitation of the Ad Masque committee to come to Oakland on the night of May 20th.

Livermore, Niles, Pleasanton, Centerville, Irvington, Newark, Mission San Jose, Alvarado, Hayward, San Leandro—all will be represented.

Then too, enthusiasm for the parade of ads, which will be revived this year, is growing apace. Entrants are coming in daily. The Oakland Real Estate Association will be represented with a float carrying out the idea of Realtor, the national title applied to the licensed real estate dealer.

HEART ROT IN
FROSTED TREES

Much of the unprofitableness and decadence of citrus trees injured by frost in past years is traceable directly to the attack of heart rot fungi.

Citrus trees are very sensitive to sunburn, particularly when injured by frost, and defoliated. Many trees had their limbs sunburned on the exposed sides, resulting in death of the bark. Cracks formed in the exposed wood, which permitted heart rot fungi spores to gain entrance and germinate. Within a few years such trees become weak and decadent, with crop production failing.

Sunburn in such trees could have been prevented if they had been sprayed with whitewash. A few growers protected their trees this year with whitewash and it is unfortunate that more did not do so, for detrimental results are sure to follow sunburn.

How to Treat Trees

The cracking of bark by the frost also enables heart rot fungi to gain entrance and do their devastating work. As soon as it is definitely determined how far back the bark is killed where splitting occurs, the dead bark should be cut away and the wounds disinfected and sealed over with a wound paint. Even then it is not at all certain whether the heart rot fungi can be kept out, for the wood is exposed for a long time before treatment is given. With the best of care many of the trees will be weak and unproductive. It is highly essential that every effort possible be made to control the heart rot fungi.

V. F. Blanchard in Orchard & Farm.

"I DON'T BELIEVE IN POWER
ON FARM"

Thus flatly declared one horse owner to a tractor salesman. Yet that man went to bed in a night shirt that had been washed in an electric washer, harnessed his team by electric light, ate breakfast toast made on an electric toaster, owned two automobiles and an irrigating pump direct-connected to an electric motor! Some day he will recognize that the tractor manufacturer can confer on him benefits similar to those he has enjoyed from the power companies. Orchard and Farm.

NILES FIRE SIREN
NOW INSTALLED

The much-awaited fire siren was installed in Niles on Saturday and tried out. A large number of boys, believing they were going to see the fire department perform, gathered at the station and awaited with eager looks in their eyes. Finally, when they espied the men working on the top of the building they decided they were about to hear something new, which they did.

The siren, which is driven by a two-horse power motor, rises to a screech that can be heard for a distance of five miles on a clear day. Despite the wind that was blowing Saturday, people on the road between Centerville and Irvington are reported to have heard it.

This is the first of the new equipment for the Niles Fire Department that has arrived.

The new truck is expected about the first of June, according to the latest advices from San Francisco.

Newark School Notes

Louis Milani, Editor

The St. Edward's team of Newark played a game of ball with Niles Saturday afternoon. The score was 4 to 3 in favor of Niles. The team will play again next Saturday at 2:30 on the Newark diamond.

The "Jolly Five" will give a dance at the school auditorium May 13th. Music will be furnished by the "Snappy Five" Orchestra of Newark. A good time is promised to all.

Mrs. J. Freitas of Newark, spent the weekend in Oakland with her sister, Mrs. Knobles.

The Grammar School team of Newark met defeat in a game with Alvarado last Friday. There was a flock of sheep on the field and our team was not used to playing with sheep. The sheep got mixed up with the Alvarado kids and we couldn't tell them apart.

Joe Marshall, Bill Darnell and Joe Pope went on a fishing trip to Carmel river last week. They caught 180 trout in three days.

The invincible Wedgewood ball team did not play Sunday, according to schedule. They were to play with the San Jose Del Montes, but the latter took Father Rickard's predictions about cold weather too seriously.

Mr. Musick and family of Newark, went to Santa Cruz Friday afternoon

on a pleasure trip. They returned Saturday evening.

B. W. Laskey, Arthur Hempleman and the Biuniller brothers went on a fishing trip to Pescadero, a mountain town in San Mateo county April 26th and returned May 3rd. They brought home many trout.

Mrs. M. Reid has gone to Napa for two months to visit with relatives.

The homes of M. Martin and W. Raber of Newark have been quarantined on account of diptheria.

The married and single men of Newark played a game of ball Sunday. Fred Rose was catcher for the married men for the first inning, but sprained his ankle when he dropped a market basket on his foot. M. D. Silva did some fancy playing on first base. He used a clothes basket to stop the ball. The score was 11 to 8 in favor of the married men.

Virgil Truit of Newark went on a fishing trip at the San Joaquin river last Friday. It was reported that he caught the limit of Cat Fish.

Joe Thomas and family accompanied John Leandra and his family, spent Sunday with friends in Mountain View.

Rev. Father Casey has purchased a new Durant touring car.

Mrs. Henry Pexeto gave an en-

IRVINGTON

(Special to the Register)

The body of John Bez 27, former Irvington boy, who had been missing for about two weeks, was found Saturday, May 6th on the banks of the Sacramento river, near Redding, where it had been caught by the brush along the water's edge, just opposite the home of Bez's father-in-law, M. Leonardini.

Bez was the son of Mr. and Mrs. Charles Bez of Irvington, former postmaster here, and a brother of Charles Bez, Mrs. William Bez, an Irvington school teacher. He was also survived by his wife, to whom he had been married but a short time. His family here were not notified of his death until late Saturday afternoon, which came as a sudden shock to his relatives and friends, as no word of his disappearance had been previously received.

A party to motor down to Santa Clara for the Mission Play last Saturday evening were the Fred Blacows of Irvington, who had as their guest Mr. Thomas Tierney.

Mr. and Mrs. J. F. Corey and little daughter spent the week end visiting with Mrs. Corey's parents, Mr. and Mrs. J. Thornbraugh.

Mrs. Martin Knudsen left Monday for Santa Cruz, to attend as delegate for the Irvington lodge, the joint convention of the I. O. O. F. and Rebekahs now being held there.

Manuel Bettencourt, of Christian Road, fell from a tree at his home and broke his collar-bone and sustained other injuries.

Mrs. Mary Bettencourt, wife of J. S. Bettencourt, has been ill at the East Columbia Hospital, following an operation.

Mr. Theo Shanave, who was hurt, breaking two ribs while in the employ of Grau & Werner, owners of Los Amegoes Vineyards, spent several days at the East Columbia Hospital, where his injury was set in a plaster cast. He is now convalescing at his home.

ALVARADO DAIRY RANCH MAKING MANY ADDED IMPROVEMENTS

Featuring from producer to consumer, the California Milk Company, which owns a large dairy ranch at Alvarado, finds itself in need of enlargement, accordingly, F. Borghi, the local superintendent has ordered a large amount of work done on the ranch.

This company is now milking eight strings, or approximately 250 cows, and are the only dairy people who deal direct with the consumers in the Bay district. 13 routes are maintained throughout the Bay district.

tainment Saturday evening for the benefit of St. Edward's Church.

Tony Silva and wife of Newark, went to Napa Tuesday, to the home of Mr. Silva's brother Manuel, who has been away for seven months on account of sickness.

Mrs. M. P. Silva is slowly recovering from an attack of rheumatism.

Harold Garcia, a student of the high school, broke his thumb last week playing ball.

Mr. and Mrs. James Steinhoff and children, accompanied by Miss Gladys Bearden, motored to the mountains Sunday.

A great banking "tree" with 49 strength-giving "Roots"

The big trees of California have grown to their tremendous size, because of the vast network of roots, reaching deep into the soil. As the roots grow and spread, so does the tree. For centuries these "mammoth of the forest" have stood strong and secure.

In a similar manner the Bank of Italy has firmly "rooted" itself, insured of strength and stability, through the many banking offices maintained in California's principal agricultural, commercial and industrial centers.

Just as the tree gains strength as its roots increase and spread, so does the Bank of Italy become stronger as new banking offices are established.

We Laugh at Casey

Casey—"Phwat's a bank?"

Maloney—"Well, it works like this: For instance Oi puts money in the bank and ye draws it out."

Casey—"But how does the bank make anything?"

Maloney—"Sure an' it's like this, Casey. They either knock down part of what Oi put in or short change ye on phwat ye draw out."

We all like to laugh at the ignorance of Casey and his friend but it is a fact that nearly all the people would be better off if they "knew more" about banks and what the banks can do for them.
